RIGINOS

THE ESSENCE OF YACHTING

DARE TO EXPLORE

With more than 50.000 boats delivered globally since the brand's founding in 2011, Highfield Boats is now the world's number one tender manufacturer.

Performance and strength have always been at Highfield's core.

The brand has focussed on these two key values above anything else. Highfield's hulls are dry-riding, very seaworthy and extremely reliable. Their reputation for durability is world-renowned. The heavy-duty approach to design and build allows both leisure and commercial owners to have the confidence needed to go that extra mile and to tackle even the hardest conditions.
