CONCEPT OF SERIES

”ACTIVE LIFESTYLE” DRIVES AN ALL-NEW SERIES OF ELEGANT AND VERSATILE WELLCRAFT CENTER CONSOLES

As a crossover concept, new Wellcraft 38 T top is a multi-role center console with a unique combination of performance, seaworthiness and entertaining. It will attract younger boaters seeking thrills on the water.

Wellcraft, a trailblazer in boat design with a rich heritage spanning almost 70 years, proudly unveils an all-new T top series. Building on the success of the Performance Cruisers introduced in 2022, this new T top series will deliver a robust, performance-oriented experience.

CONCEPT OF SERIES

ENERGIZING PERFORMANCE

Focusing on active engagement with the sea, this new 38 T top is a world-class center console with premium features. It embodies the spirit of adventure and excitement while proving a versatile and family-friendly entertainment platform.

The new Wellcraft 38 T top does not compromise on speed, offering exhilarating acceleration with twin or triple outboard motors. Engineered to deliver unmatched performance and agility on the water by optimizing the power-to-weight ratio. Additionally, cutting-edge build technology and high-quality American hull designs ensure T top series to provide an adrenaline-fueled experience like no other.

CONCEPT OF SERIES

PUSHING THE LIMITS OF ENTERTAINING

Inspired by performance center consoles and built as a premium dayboat, the new Wellcraft 38 T top pushes the limits of performance and entertaining on the water.

The flagship, with its innovative cockpit layout offers the most seating in her class, as well as storage for all watersport toys and activities. A drop-down beach terrace is a premium feature providing unmatched access to the water. Featuring a high-end cabin and well-equipped galley, this new series promises the ultimate day on the water. Solid center console roots with just enough unique European styling elements to make it stand out in a crowd.

Built for those who dare to explore, it is sure to provide added excitement for every adventure.

ARCHITECT / DESIGNER

Michael Peters

Camillo Garroni

HIGH SPEED OFFSHORE NAVAL ARCHITECTURE

American High-Speed-Offshore specialist Michael Peters and his team have designed the running surfaces. Based on his rich experience with fast, ocean going vessels, Michael has optimized the naval architecture for a highly efficient, safe and soft ride in any conditions.

PUSHING THE LIMITS OF X-OVER DESIGN

Famed Italian Camillo Garroni and his team have designed the 38 T top in a modern and functional style. The innovative deck layout provides excellent circulation on board. All features of the helm are placed in a way to give full control and best visibility. The front and aft cockpit have versatile functions and adapt to all use-cases from relaxing to fishing. The cabin space is simply best in class and provides full standing height, a wet head and full size bed!
